

TRIAFIX HERNIA 02

Hernia orthosis

Ref. SRT 145

INSTRUCTIONS FOR USE

Dear Customer!

Thank you for the confidence you have shown in purchasing Triamed products! We would like to inform you that Triamed products are made of the best performing materials, all having quality certificates and biocompatibility tests. These orthoses comply with the Technical Specification and the requirements of Regulation (EU) MDR 2017/745 of the European Parliament on medical devices and comply with the requirements set out in Annex I - General Requirements for safety and performance- and Annex VIII - Classification rules. Conformity is declared on the basis of Article 52 (7), Annex II and Annex III of MDR 2017/745.

Important information

The orthosis is used according to the recommendations of the specialized physician.

Choosing the size - For optimal results, the appropriate size will be selected based on the measurements table of the product. A size too small may lead to intolerance to wearing or the damage of the product! A size too large significantly diminishes the efficacy of the orthosis.

This orthosis should only be applied in accordance with the instructions mentioned here. The product is intended for single patient use.

No liability is accepted for incorrect product use. Guarantee is bound to statutory regulations.

Available sizes

Universal size

For hip circumference between 75 – 135 cm.

Indications

It is used in case of small or medium reducible inguinal hernia.

Description

It is made of elastic textile, provided with:

- one leg strap
- one removable compression pad with the possibility of individual positioning.

Hook and loop closure on the side. The hip band is provided at one end with a "crocodile" type fastener, which allows the adjustment of the bands` length by cutting.

The groin fixation band is adjustable by cutting and is provided with a "crocodile" type fastener.

The textile material used is double-sided, the orthosis can be used on both sides by turning inside out and repositioning the pad and the "crocodile" type fastener.

The appropriate pad (1 or 2) is selected, depending on the need (left or right).

The orthosis is small and can be easily worn under the clothes.

The unilateral inguinal hernia orthosis has the advantage of individual positioning of the pad due to the hook and loop fastening.

Purpose

The orthosis provides support and compression in the groin area, either to prevent the occurrence or recurrence of a hernia, or as an aid in the postoperative period.

Composition

Textile elastic fabric.

Laminated textile.

Positioning

The orthosis is positioned from front to back, closed on side, and the fixing band is passed from front to the back and is adjusted so that the pressure pad is well fixed.

If it is necessary to adjust the position of the orthosis, the adjustment is made by fully opening the hook and loop fastener and repositioning the orthosis higher or lower on the body segment, depending on the need. **To avoid the damage of the material, do not pull the orthosis while is fixed.**

Cleaning

To be washed by hand with warm water, no bleaching, no spinning, no ironing, no chemical cleaning!

Storage

At room temperature, in a dry space with good ventilation.

Commercial warranty of the product: 30 days.

Date of production: see packaging label.

Validity date: no expiry date.

To validate the warranty, the seller must indicate the date of purchase. The buyer is obliged to keep and present the warranty coupon.

In order to solve the problems that appeared in the warranty, the following data must be notified: Article reference, batch and date of manufacture, indicated on the packaging box of the product.

Deadline for communication of the solution: 15 days.

Please send notifications and complaints to the following email address: suportclienti@triamed.ro

WARRANTY COUPON 30 days from the date of purchase	Batch and date of manufacture
Product reference	Date of purchase
The reason of complaint	Seller name and signature
