

M FINGER

Fixed wrist hand finger orthosis

Ref. SRT 237

INSTRUCTIONS FOR USE

Dear Customer!

Thank you for the confidence you have shown in purchasing Triamed products! We would like to inform you that Triamed products are made of the best performing materials, all having quality certificates and biocompatibility tests. These orthoses comply with the Technical Specification and the requirements of Regulation (EU) MDR 2017/745 of the European Parliament on medical devices and comply with the requirements set out in Annex I - General Requirements for safety and performance- and Annex VIII - Classification rules. Conformity is declared on the basis of Article 52 (7), Annex II and Annex III of MDR 2017/745.

Important information

The orthosis is used according to the recommendations of the specialized physician.

Choosing the size - For optimal results, the appropriate size will be selected based on the measurements table of the product. A size too small may lead to intolerance to wearing or the damage of the product! A size too large significantly diminishes the efficacy of the orthosis.

This orthosis should only be applied in accordance with the instructions mentioned here. The product is intended for single patient use.

No liability is accepted for incorrect product use. Guarantee is bound to statutory regulations.

Available sizes

Sizes	1	2	3
Wrist circumference (cm)	15-18	18-21	21-25
Reference	SRT237M1	SRT237M2	SRT237M3

The circumference of the wrist is measured

The orthosis can be used on both the left and right hand.

Indications

It is used in case of metacarpophalangeal sprain II – V, proximal interphalangeal sprain fingers II-V, metacarpal fracture II-V, proximal and middle phalanx fracture fingers II-V.

Description

Orthosis made of textile, provided with:

- one mouldable metal splint
- one finger strap
- one palm strap
- one radiocarpal fastening band.

The closure is made with 3 straps, provided with hook and loop fastener, on the back of the hand.

Length: between 26-28 cm, depending on size.

Purpose

The orthosis stabilizes and immobilizes the joints of the hand and fingers II-V, and the radiocarpal joint.

It can be used on both the palm and the back of the hand, immobilizing 2 fingers at a time.

Composition

Laminated textile. The laminated textile ensemble behaves like a moisture regulator, ensuring a quick transfer of the moisture to outward.

Positioning

The orthosis is positioned so that the metal splint supports the palm, then the fixing band for the wrist and the 2 fixing straps (for the palm and the fingers) are adjusted to the optimum compression.

If it is necessary to adjust the position of the orthosis, the adjustment is made by fully opening the hook and loop fastener and repositioning the orthosis higher or lower on the body segment, depending on the need. **To avoid the damage of the material, do not pull the orthosis while is fixed.**

Cleaning

To be washed by hand with warm water, no bleaching, no spinning, no ironing, no chemical cleaning!

Storage

At room temperature, in a dry space with good ventilation.

Commercial warranty of the product: 30 days.

Date of production: see packaging label.

Validity date: no expiry date.

To validate the warranty, the seller must indicate the date of purchase. The buyer is obliged to keep and present the warranty coupon.

In order to solve the problems that appeared in the warranty, the following data must be notified: Article reference, batch and date of manufacture, indicated on the packaging box of the product.

Deadline for communication of the solution: 15 days.

Please send notifications and complaints to the following email address: suportclienti@triamed.ro
